

TAMILMALAR

Computer Science & Engineering Undergraduate

• +91 8825416812 | tamillmalarr40@gmail.com | LinkedIn | GitHub | LeetCode

PROFILE SUMMARY

Computer Science undergraduate with experience in Python, machine learning, computer vision, and web development. Skilled in building end-to-end software solutions and applying analytical problem-solving to real-world challenges.

EXPERIENCE

Control N

Jan 2025

Web Development Intern

Remote

- Developed and maintained responsive web pages for live client projects, ensuring cross-browser compatibility and timely delivery.
- Implemented on-page SEO best practices and managed blog content to improve organic visibility and reach.
- Collaborated with a cross-functional team on deployment, testing, and debugging to ensure smooth, reliable releases.

TECHNICAL PROJECTS

AI Sign Language Recognition System

Python, OpenCV, TensorFlow, MediaPipe

- Built a real-time sign language recognition system leveraging computer vision and machine learning to translate hand gestures into text.
- Integrated MediaPipe for hand tracking, extracting 21 landmark points per hand for accurate gesture feature analysis.

Violence Detection System

Python, PyTorch, OpenCV, BLIP

- Developed an AI-powered real-time violence detection system using PyTorch, OpenCV, and BLIP for live video surveillance.
- Implemented computer vision and image captioning pipelines to identify and classify violent activities with contextual understanding.

Student Performance Analysis

Python, Pandas, NumPy, Matplotlib

- Performed exploratory data analysis on academic datasets to uncover trends in student performance across subjects.
- Applied data cleaning, preprocessing, and visualization techniques to translate raw data into actionable insights.

TECHNICAL SKILLS

Programming Languages Java, Python, C, JavaScript

Libraries & Frameworks OpenCV, MediaPipe, TensorFlow, Scikit-learn, Tkinter

Web Technologies HTML, CSS

Tools & Platforms Git, GitHub, VS Code

Core Concepts Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS

- Solved 31+ coding problems on LeetCode covering arrays, strings, and core algorithmic concepts.
- Active participant in coding challenges and problem-solving platforms, consistently building algorithmic fluency.
- Participated in Smart India Hackathon (SIH) at the college level and presented a project idea to the panel.
- Developed strong analytical and debugging skills through regular competitive programming practice.

CERTIFICATIONS

- NPTEL Data Science Certification – IIT Madras (Elite, 67%)
- HackerRank Python (Basics) Certification

EDUCATION

Akshaya College of Engineering and Technology

2023 – 2027

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.67/10)

Tamil Nadu, India

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering.
